

IN THE SPECIFICATION

Kindly amend the Specification as follows:

Delete the paragraph beginning at page 48, line 25, and ending at page 49, line 7, and replace with the following:

G'
Referring to the flowcharts of FIGS. 14AS through 14D, the following paragraph describes the sequence executed when an interrupt occurs after step #104 in which interrupt was enabled. An interrupt occurs when any of the following switches is turned on, SC which detects existence/nonexistence of the IC card 2, SP which detects a transfer to the print mode, SV which requests reproduction of image on a TV screen, and access buttons ST and SW.
